## PROGRAM REPORTS

### 1. (a) Development Review

Andrew Bicknell, Senior Regulations Coordinator, introduced two new staff to the ABCA Planning and Regulations Department, Jaden Schoelier and Millie Ghorbankhani. He also presented the Development Review report pursuant to Ontario Regulation 41/24 *Prohibited Activities, Exemptions and Permits*. Through the application process, proposed developments within regulated areas are protected from flooding and erosion hazards. Staff granted permission for 5 *Applications for Permission* and 8 *Minor Works Applications*.

### (b) Violation/Appeals Update

Geoff Cade, Water and Planning Manager, updated the Board of Directors regarding a new violation in Lambton Shores along the Ausable River downstream of Highway 21. ABCA staff were notified by Lambton Shores staff of a landowner who had built a two story bunkie to rent as an Airbnb, but who also dredged a section of the river, built a bridge to ABCA property, and appears to have built docks on ABCA property. Staff understand that Lambton Shores will be ordering the removal of the bunkie structure; however, ABCA and municipal staff are meeting to determine the best way to handle these violations.

### **MOTION #BD 44/25**

**Moved by Wayne Shipley  
Seconded by Jaden Hodgins**

**“RESOLVED, THAT the Board of Directors affirm the approval of applications as presented in Program Report # 1 – a) Development Review and receive the verbal Violations and Appeals update as presented.”**

### 2. Conservation Area Playgrounds

Nathan Schoelier, Stewardship and Conservation Lands Manager, reported that ABCA’s insurer, Marsh Canada Limited, recommended that the playgrounds at Rock Glen Conservation Area (2 playgrounds) and Clinton Conservation Area be inspected annually by a certified playground inspector. In spring 2025, Spencer Lewis of Playchek Services Incorporated inspected the three playground structures owned by ABCA. The playground equipment at Rock Glen Conservation Area is in good shape, and the inspector noted some minor maintenance tasks to ensure compliance with the standards. However, the inspector identified several deficiencies with the playground structure at Clinton Conservation Area, including deteriorating condition of material, and insufficient specifications for clearances, such as within the swing set. Complete removal of the structure was recommended.

ABCA staff will be onsite to replace privy washrooms at Clinton Conservation Area later this summer and will remove the playground structure and swing set at that time. Staff will consider options for the replacement of these structures, and for the interim will investigate cost-friendly, passive

outdoor activities. The replacement of the playground may provide and opportunities for ABCA to partner with community groups and local organizations to enhance the space for the community. Directors provided Nathan with contacts at Central Huron, who may be able to help with the provision of community support for the replacement of the equipment.

**“RESOLVED, THAT the Ausable Bayfield Conservation Authority Board of Directors approves the removal of the playground structure and swing set at Clinton Conservation Area in 2025, and**

Angela Van Niekerk, Wetlands Specialist, provided the Board of Directors with an update on stewardship projects funded through the Canada Nature Fund. This funding is specifically for the Ausable River Watershed to improve freshwater habitat for species-at-risk. Funding totaled \$330,000 for the 2024-2025 project year. In total, 98 projects were approved, including 11 wetlands, 24 fragile land retirement projects (tree planting), 3 sediment and nutrient reduction activities, and 60 cover crop projects. File: A.5.1

#### NEW BUSINESS

1. Davin Heinbuck, reminded Board members that a tour is being planned for local MPPs that is focusing on Drainage Innovations. There are as many as seven MPPs who are interested in attending, and while a date is still to be determined, it is hoped that it will occur prior to Labour Day.
2. Adrian Cornelissen reported that ABCA will be receiving a letter of support from the Municipality of North Middlesex, regarding the possible acquisition of Scouts properties that might become available for purchase.
3. Joey Groot noted that ABCA might want to look into the carbon footprint of the Administration Centre and determine if there are any areas for improvement, such as changing the lighting. He commented that there are some grants currently available to help with energy saving initiatives. Davin thanked Joey for the suggestion and noted that when the renovations occurred in the workshop this spring, the lighting was upgraded to more energy efficient options.
